299,672.78 €

One of the best things about being involved in a COST Action network is that they bring together international professionals to champion one common purpose. This gives you an opportunity to collaborate and network with team members across the project, whom you normally may not interact with. Not only can you create close working relationships with these team members, but also learn more from their expertise, and perform better in your career.

Dr Manjola Zaçellari, Senior Lecturer, Department of Albanian Language, Aleksandër Moisiu University of Durrës
