

Common Regional Market

September 2023

The **Western Balkans Agenda on Innovation, Research, Education, Culture, Youth and Sport** is a long-term strategy from the EU and the Western Balkans (WB) for cooperation with the region. It will contribute to the region's economic and societal development and builds on three main pillars: Political, Thematic, and Regional.

The implementation of the Western Balkans Agenda is monitored by the project POLICY ANSWERS, and the wider context and progress and achievements are summarised in regular reports. In this brief report card, you find a first outline of the baseline data collected during 2022 and the first months of 2023.

In terms of Common Regional Market, the monitoring focuses, on the one hand, on the context indicator "Knowledge-intensive service exports" and, on the other hand, on a variety of achievements outlined in the WB Agenda (see on the backside of this document).

Achievements in a wider context of the Western Balkans Agenda

Knowledge-intensive service exports (in percent)

Knowledge-intensive service exports refer to the international trade of services that – such as professional, scientific and technical services – rely heavily on specialised knowledge and expertise. These services are typically provided by highly skilled professionals and are characterised by a high degree of customisation, innovation and knowledge intensity.

Note

Knowledge-intensive service exports are given as share of total value of services exports.

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

Priority

Strengthening regional economic cooperation and the Common Regional Market

Regional Indicators

Tool Kit for skills for supporting smart Specialisation Strategies (S3)	Analysis of Value Chains in the WB Economies	S3 Implementation Framework
