

Research and Innovation

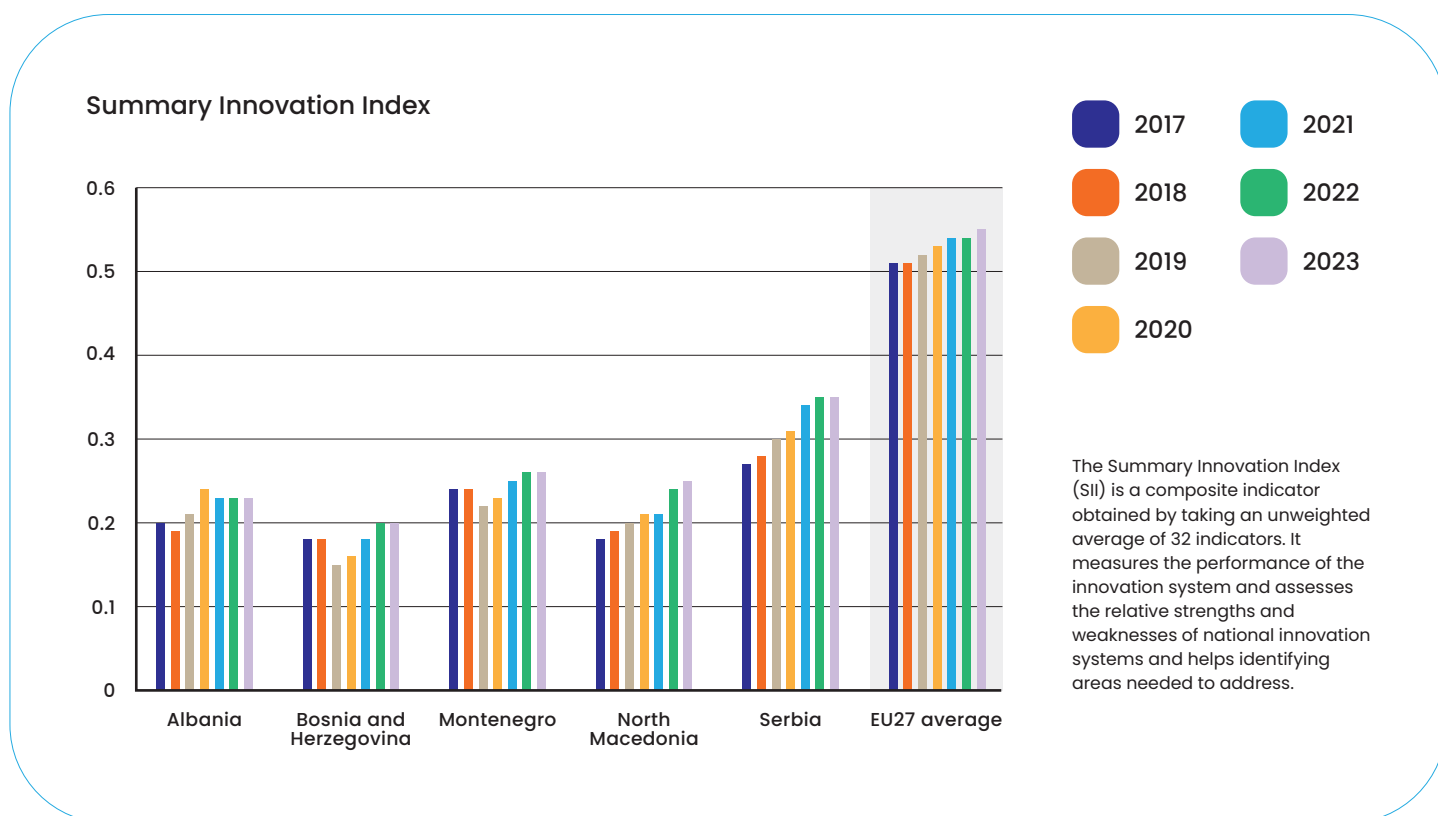

July 2024

The Western Balkans Agenda on Innovation, Research, Education, Culture, Youth and Sport is a long-term strategy from the EU and the Western Balkans (WB) for cooperation with the region. It will contribute to the region's economic and societal development and builds on three main pillars: Political, Thematic, and Regional.

The implementation of the Western Balkans Agenda is monitored by the project POLICY ANSWERS, and the wider context, progress and achievements are summarised in regular reports. In this brief report card, you find the results of the second round of data collection during 2023 and the first months of 2024 and a comparison with the baseline data collected in the previous round.

In terms of Research and Innovation, the monitoring focuses on the context indicator "Summary Innovation Index" and on a variety of achievements outlined in the WB Agenda (see next page).

Achievements in a wider context of the Western Balkans Agenda

Note
Data for Kosovo* not available
