Innovation & Technology

A body of the European Union

EIT COMMUNITY IN NORTH MACEDONIA

Country Factsheet 2024

INTRODUCTION

The **European Institute of Innovation and Technology (EIT)** is an EU body created to strengthen Europe's ability to innovate. Today, it is **Europe's largest innovation ecosystem**.

Together with leading partners across Europe, the EIT Community offers a wide range of innovation and entrepreneurship activities from **entrepreneurial education** courses, to **business creation and acceleration** services, to **innovation-driven research projects**.

The EIT

- provides access to a community that powers innovators throughout **the entire innovation journey**, from education to lab to market
- embraces **disruptive innovation** and embeds **entrepreneurial education** in its innovation activities
- is **business-oriented** with a strong focus on **financial sustainability**
- delivers a **pan-European network** strongly anchored in local innovation ecosystems

The **EIT Country Factsheets** provide a closer look at the EIT's presence, investment, activities and tangible results across EU Member States and beyond.

EIT IMPACT OVER 15 YEARS

EIT KNOWLEDGE & INNOVATION COMMUNITIES

EIT CLIMATE-KIC

Accelerating the transition
to a zero-carbon economy

EIT DIGITAL

Driving Europe's digital
transformation

EIT INNOENERGY

A sustainable energy future
for Europe

EIT HEALTH

Healthier lives for
EU Citizens

EIT RAWMATERIALS

Developing raw materials
into a major strength for
Europe

EIT FOOD

Leading a global revolution
in food production &
innovation

EIT MANUFACTURING

Increasing Europe's
manufacturing
competitiveness

EIT URBAN MOBILITY

Smart, green &
integrated transport

EIT CULTURE & CREATIVITY

Uniting Europe's creatives

EIT WATER

COMING SOON*

THE EIT KICS AND THEIR PARTNERS MAKE UP
THE EIT COMMUNITY

The EIT supports the development of dynamic, long-term thematic partnerships, so-called Knowledge and Innovation Communities (EIT KICs).

These unique partnerships are formed among companies, research organisations, higher education institutions as well as other key innovation players. They each tackle a specific global challenge.

GLOBAL PICTURE 2023-25

EU Countries (2023-2025)

Non-EU Countries (2023-2025)

For the period 2023-2025*, a total EIT funding of **EUR 826.72 million** has been committed towards entities incorporated in EU Member States. Furthermore, the EIT Community has also allocated **EUR 31.54 million** in funding towards entities registered in non-EU countries, both in Europe and beyond.

* Figures show the overall EIT Funding per country including all the EIT KICs and all the participating organisations.

EIT GRANTS 2023-2025 OVERVIEW

EIT Grants to Business SMEs (EUR, 2023-2025)

EIT Funding per Participant Area (EUR, 2023-2025)

EIT Funding per KIC (EUR, 2023-2025)

A total of **EUR 0.3 million** has been committed in EIT grants towards North Macedonian entities for the period 2023-2025.* This amount has been committed via five EIT Knowledge and Innovation Communities, with EIT Climate-KIC being the largest contributor. This funding includes **EUR 0.11 million** to support North Macedonian SMEs.

*Grants awarded to EIT KIC Legal Entities and Co-Location Centers include funding towards activities which are implemented centrally but benefit the whole partnership (multiple countries). Furthermore, they may include funding which is further sub-granted to third party beneficiaries.

EIT COMMUNITY IN NORTH MACEDONIA

Key results under Horizon Europe (2021-2024)

-  18 **start-ups** supported or created by the EIT Community.¹
-  2 EIT-supported **innovations** were launched on the market.
-  2,610 **participants** in EIT education programmes.²

Top National Organisations per EIT Funding (EUR million, 2023-2025)

¹ See the *Data Principles* section. ² Figure includes graduates of EIT Labelled programmes as well as participants in non-EIT Labelled programmes.

PARTICIPATING ORGANISATIONS

Participating organisations per Area (2023-2025)

Overall, **5 organisations** from North Macedonia are participating in the activities of the 2023-2025 EIT KIC Business Plans.* The largest number of participating entities are business organisations, out of which, almost 70% are SMEs. Some organisations take part in more than one EIT KIC.

Share of SMEs (2023-2025)

Participating organisations per KIC (2023-2025)

*Some organisations may fall under different areas and participate in multiple Knowledge and Innovation Communities, therefore, the charts “Participating organisations per KIC” and “Participating organisations per Area” may include duplications.

INNOVATION JOURNEY

Supported by EIT Manufacturing

Smart Learning Factory Boosting digital readiness and skills in North Macedonia

The Smart Learning Factory – Skopje (SLFS) marks a significant milestone in enhancing digital capabilities and Industry 4.0 readiness for students and small and medium-sized enterprises in North Macedonia. Established in 2023 at the Faculty of Mechanical Engineering, 'Ss. Cyril and Methodius' University in Skopje, the SLFS is a direct continuation of the achievements of the Learn4SME project.

Learn4SME, initiated by the Skopje-based Centre for Research, Development and Continuous Education (CIRKO LF), was an international initiative focused on improving the digital proficiency of North Macedonian SMEs through targeted upskilling.

Supported by the EIT Manufacturing RIS Hub in North Macedonia, the project introduced the concept of learning factories – sophisticated training environments that replicate real-life industrial production systems, enabling practical, hands-on education.

Building on this groundwork, the Smart Learning Factory – Skopje has now become a permanent centre for advanced skills development. Featuring cutting-edge equipment – including SCARA robots, 2D machine vision systems, and smart Kanban stations – the facility continues to deliver high-impact training to meet the needs of industry and academia alike. Over 60 participants took part in the inaugural workshop, and ongoing demand from local partners reflects the relevance and value of the programme.

DATA PRINCIPLES

DATA PROVIDED IN THE 2024 FACTSHEETS

- The funding and participation data were retrieved from the European Commission tool ‘**eGrants Data Warehouse**’ as of 05/12/2024. The factsheets provide a snapshot of data available at the date of retrieval.
- The funding figures show EIT grants committed to organisations participating in the activities of the **EIT KIC Business Plans 2023-2025**.
- The funding and participation data is subject to change until the end of the funding cycle 2023-2025. The final figures will be available in 2026.
- Data on **key results under Horizon Europe** is derived from the **2021-2024 EIT KIC reporting cycles**.
- **Start-ups supported or created by the EIT Community** include those supported by EIT KICs, founded by EIT Alumni, or resulting from EIT innovation projects.
- The 2024 factsheets cover activities of all the EIT KICs except for EIT Culture & Creativity.

DATA ON PARTICIPATING ORGANISATIONS

- The funding and participation figures do not include organisations that participated in specific sub-calls launched by EIT KICs, such as acceleration programs managed by EIT KIC Co-location Centers.
- Participating in an EIT KIC does not automatically lead to receiving EIT funding.

GLOSSARY

PARTICIPATING ORGANISATION

An entity participating in the implementation of one or multiple actions, projects or activities under an EIT KIC Business Plan. Participating organisations are not necessarily EIT KIC partner organisations. Not all the participating organisations receive EIT Funding. They can also benefit from other, non-financial support.

CO-LOCATION CENTRE

Also known as CLC, is a location where one or more EIT KICs share resources to create a physical presence together in a country. CLCs act as focal points for knowledge exchange, through which partners access the facilities, and the expertise needed. This leads to efficiency through shared costs and allows EIT KICs to work together more easily to provide joint opportunities in the country and the region that the CLC covers.

EIT REGIONAL INNOVATION SCHEME

The EIT Regional Innovation Scheme helps build up innovation capacity in countries where the innovation ecosystem requires an additional level of support. The EIT Regional Innovation Scheme grants support education programmes, business acceleration services and Knowledge Triangle Integration activities, implemented in the countries that have modest or moderate innovation capacity (according to the European innovation scoreboard).*

EIT RIS HUB

EIT RIS Hubs are local entities in an EIT Regional Innovation Scheme eligible country selected by EIT Knowledge and Innovation Communities via an open competitive process. RIS Hubs are key to delivering the place-based activities and services which help boost the local innovation ecosystem, as they create an entry point for local innovators to access the whole EIT community.

*For the list of RIS-eligible countries , please visit the EIT [website](#).
