

## 7th Annual International Summit and Exhibition Balkan's Power

**Data:** 5-6 November 2025

**Place:** Kotor, Montenegro

**Official Website:** <https://balkanspowersummit.com/>

7th Annual International Summit and Exhibition: Balkan's Power, a professional platform that brings together chief ministers, major investors, and decision-makers from leading hydro, wind, and solar power plants. This prestigious international summit is designed to consolidate efforts for the efficient implementation of key energy projects across the Balkan region. As one of the top international summits and conferences 2025, it offers a unique opportunity for industry leaders and regulators to collaborate on the construction and reconstruction of power plants. Be part of this influential world summit and don't miss your chance to attend the leading summit 2025 for sustainable energy development in the Balkans.

### Conditions of participation

#### Summit highlights 2025:

- **100+ industry leaders and experts** will gather at the Balkans Power Summit 2025, bringing together executives from key companies, regulatory agencies, government officials, operators, providers of technology and service, local and international investors
- **100+ investment projects** – achievements in construction and modernisation of **hydro, solar, and wind** power plants from Montenegro, Serbia, Bosnia and Herzegovina, Slovenia, Greece, Croatia, Kosovo, Bulgaria, Albania, North Macedonia, Romania, Türkiye
- **Strategic Opening Session:** The Balkans' Power Trio: Hydro, Solar & Wind Reshaping Europe's Energy Map
- **Balkan Energy Renaissance: The Trailblazing Projects – Hydro, Wind & Solar.** Overview of key investment projects
- **Round Table. Overcoming Barriers to Hydro Power Generation.** Deep dive into the critical challenges of low-carbon energy transition
- **Important! The Money Flow: Financing Balkan Hydro, Solar & Wind Revolution** – how to mobilise capital for investment projects in the Balkans?
- **New! Transmission Networks for Nature-Powered Dominance.** Modernising Balkan power grids for large-scale energy integration
- **Technical Round Table. Mission-Critical Engineering: Resilient Hydro, Solar & Wind Infrastructure** – exploring engineering solutions to design and build long-lasting energy systems across the region
- **Debates. Energy Storage and Grid Flexibility** – provocative, competitive framing to spark engagement in discussions about technologies and strategies for enhancing grid stability and integrating renewable energy
- **Specialized Tech Exhibitions and Presentations.** Featuring cutting-edge exhibitions, roadshows, and displays of advanced technologies, equipment, and services from global industry leaders

- **2 days of business and informal networking!** One-on-one meetings, business lunches, welcome cocktail and much more
